Why do you want to join EDC

I wish to actively promote entrepreneurship on campus not only through e-club meetings but actually help organise EDC activities. E-club already facilitates us with extended interaction with EDC. I wish to take this a step further by providing my services in whichever way i can. Plus, like all E-club members, even I'm waiting for the one good idea to choose me and being in EDC will only help me

What other activities are you a part of?

Strengths/Skills
