**Why do you want to join EDC**

I have been influenced greatly by the presence of EDC in the campus. From the time of intro talk I was motivated to the core to be exposed to some of the most successful entrepreneurs. Its like a driving force, you can be inspired to tread upon a unique career. For me there are 3 important things in life-: 1. Discovering oneself 2. Motivation 3. Capturing your fears. I have made up my mind and I am motivated in becoming an entrepreneur but by a direct exposure to the people who have formed startups successfully, it will enable me to capture my fears and give security. Apart from this, I am aware of the various events that EDC conducts throughout the year and I want to be a part of the management team to hone my communication as well as management skills.
