

Entrepreneurship Development Cell, IIT Roorkee
Recruitment (zeppelin)

Name	Sameer Rastogi	
Branch	Production and Industrial Engineering	
Email	sameer9113@gmail.com	
Phone	7895661676	

Why do you want to join EDC

Although i share the common dream of running my own business like most people out there, it is not the reason why i want to be a part of edc. I, in my six months over here, have seen many good and feasible plans go down the drain just because there is not much encouragement and support. Some wonderful plans were left stranded just because the concerned person didn't know how to proceed further. I want to change this and promote entrepreneurship in the campus and bring IITR to the level of other IITs in terms of setting up ones own business.

What other activities are you a part of?

I am currently in the finance cell of IEEE chapter geek gazette magazine and in the program management section of the cultural council.

Strengths/Skills

I believe i have good communication skills and can interact with anyone and have a healthy conversation. I don't have any problem in talking to an absolute stranger. I can also manage and coordinate a group of individuals to get some work done.
