Recruitment (zeppelin)

Name	Vaibhav Soni	
Branch	Geophysical Technology	
Email	vaibhav3131@gmail.com	
Phone	8909166548	

Why do you want to join EDC

I have always had a great interest in entrepreneurship and business related activities. I belong to a business family and this is something that has been in my blood throughout. I wish to learn a lot about entrepreneurship by working with like minded people and learning from them and this the exact opportunity that EDC is offering me as somewhere in the back of my mind I do nurture a plan to get into this field someday. This is something that interests me and would give me a feeling that I am doing something worthwhile and hence I will be able to give it my hundred percent. Besides, even if my plans of being a successful entrepreneur do not materialize, I can at least develop the temperament and thought process of a businessman which would be helpful to achieve success in any field.

What other activities are you a part of?

Intern in campus start up 'Campus Fever' by Shraeyansh Thakur. Actively involved with EDC. (I took part in the event 'Business Baazigar' organized by EDC and stood first along with my teammate). I also work for NSS and play Squash.

Strengths/Skills

Although I have not had any formal experience, I believe I can be good at communicating with people.
