Why do you want to join EDC

Zeal to learn new things. To learn how to deal with different people at different situations. Interest in business field. Like to help people in developing their logical, creative and innovative thinking skill. Most importantly, as in today's globalised world where war between the countries is not by Arms and weapons but by business policies and technological advancement, I want to learn all the aspects of business skills before I leave IITR, for which EDC is the right place for me.

What other activities are you a part of?

I am involved in Aero modelling where I made my first flying craft. At present I am working in cognizance.

Strengths/Skills

I am good in programming. I know C, C++ languages. I am not perfect in designing and web development, but I am learning designing. I have good communication skills and ability to put my views clearly to others and an ability to convince people.
